PETITION UNDER 37 C.F.R. 1.181(f) TO WITHDRAW HOLDING OF
ABANDONMENT BASED ON FAILURE TO RECEIVE OFFICE ACTION

SIR:

This petition is filed in response to the Notice of Abandonment mailed on August 1, 2002 (Paper No. 9).

REMARKS

In the Notice of Abandonment mailed August 1, 2002 (Paper No. 9), the Examiner notes that the application has become abandoned in view of Applicant's failure to timely file a proper reply to the Office letter mailed on August 3, 2001. Applicant responds that even if the PTO did mail such an Office Letter, it was never received by the applicant's representative. Therefore, this Petition is presented to request that the Patent Office withdraw the abandonment and mail a new Office letter for the above-referenced application.

Pursuant to the criteria of the Court in *Delgar v. Schuyler*, 172 USPQ 513 (D.D.C. 1971), the applicant's representative contends that the August 3, 2001 Office letter for the above-referenced patent application was not received by applicant's representative or law firm, and that applicant's representative has personally searched the file jacket and those docket records pertinent to the time frame within which the August 3, 2001

RECEIVED

OFFICE OF PETITIONS

Office letter was alleged to have been mailed and should have been received. The Office letter of August 3, 2001 was not found, nor is there a docket entry to respond to such letter in the firm's docketing program.

To assist the PTO in evaluating this Petition, an Action Item report printout (Exhibit A) is provided for the above-referenced application. All actions related to this application are listed as well as the last date this application record was updated into the computer docketing system. Also enclosed as Exhibits B and C are the partial firm docket reports for October and November, 2001, respectively (i.e., due dates from October 1 - October 5 and November 1 - November 5 are shown). As the August 3, 2001 Office letter was allegedly a Final Office Action, the two-month date of October 3 and the three-month date of November 3 would have been docketed. No such entries exist in the Action Item report or the docket reports; accordingly, it is submitted that the August 3, 2001 Office letter was never received. As can be seen, the last Office letter of record was dated March 1, 2001 and such letter was responded to on May 31, 2001.

With respect to routing of documents, each Patent Office communication related to an application having a correspondence address of Thomason, Moser & Patterson, LLP (the previous name of the present firm, Moser, Patterson & Sheridan, LLP) (such as the instant patent application) is opened by a staff member charged with this duty (i.e., the Administrator of the Senior Partner). That staff member brings all Patent & Trademark Office Communications to the Docket Administrator. The Docket Administrator enters each received Communication into the docket system, retrieves the file associated with each received Communication and provides the retrieved file along with the Communication to the appropriate attorney. Since there is no entry within the docketing system of the August 3, 2001 Office letter, the applicant's representative firmly believes that such Office letter was never received.

The following facts are also presented by applicant's representative so as to positively assert the facts regarding the correspondence address in the above-identified application. On April 6, 2000, attorney for applicant, John V. Silverio, filed a Modification of Power of Attorney and Change of Correspondence Address with a change in the correspondence address to Thomason, Moser & Patterson, LLP, 2-40

Bridge Avenue, P.O. Box 8160, Red Bank, NJ 07701. Said communication was acknowledged by the PTO and correspondence in this application was indicated to have been mailed to such address as of the PTO Notice dated June 29, 2000.

The offices of applicant's representative moved from the Red Bank, NJ location to its current location of 595 Shrewsbury Avenue, Shrewsbury, NJ 07702 in July of 2000. Applicant's representative subsequently prepared and filed a change of address for customer number (customer number 28166) on June 11, 2001 to have the correspondence address associated with this customer number changed to the Shrewsbury, New Jersey address. A copy of that correspondence along with the Excel spreadsheet containing the serial number of the subject application is attached (Exhibit D). Also attached is a return postcard marked "Received" by the USPTO on June 19, 2001. In reply to this communication, applicant's representative received a correspondence from Keith Peterson of the USPTO Patent Electronic Business Center requesting additional information with regards to various applications enclosed in the original spreadsheet. This communication was dated July 29, 2001 (Exhibit E). Applicant replied to Mr. Peterson's July 29, 2001 letter in a July 30, 2001 facsimile correspondence clarifying the issues in question (Exhibit F).

Recent teleconferences with the Examiner in the above-identified application revealed that the change in correspondence address to this specific application was not entered in the PTO records until August 22, 2001 (approximately 19 days after the alleged mailing of the August 3, 2001 Official letter). Therefore, it is submitted that while applicant took all necessary steps to insure that the above-identified application contained the most accurate and up-to-date correspondence address information, such information was not timely processed by the USPTO before the mailing date of the Official letter in question. Accordingly, if such correspondence was indeed mailed from the USPTO, it would not have been received at the current location despite applicant's representatives best efforts to insure receipt of any such information.

While the applicant's representative does not necessarily dispute the Patent Office's mailing of such Office letter, the applicant's representative notes that such Office letter was not received. Moreover, the applicant's representative notes that he

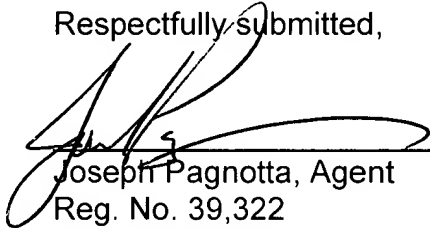

cannot remember any lost correspondence from the PTO pertaining to a matter personally handled by the applicant's representative.

CONCLUSION

For the above-stated reasons, the applicant respectfully requests that the abandonment be withdrawn and that a new Office letter be issued. If, however, the Examiner believes that there are any unresolved issues, it is requested that the Examiner telephone Mr. Joseph Pagnotta at (732) 530-9404 so that appropriate arrangements can be made for resolving such issues as expeditiously as possible. A Petition fee of \$130.00 is hereby enclosed or otherwise authorized to be charged to representative's Deposit Account No. 20-0782. If additional fees are required, authorization is hereby given to charge any such fees.

Respectfully submitted,

September 18, 2002

Joseph Pagnotta, Agent

I have received your spreadsheet to associate your applications/patents with your customer number, and there are just a few more questions. There are a few files that are currently going to a different address for correspondence and we just have to do a little preventive maintenance to be absolutely sure that you do, in fact, want to update these files to your customer number.

Please take a look at the attached spreadsheet, which lists the "questionable" applications. Once you have verified whether or not you wish to associate these applications/patents with your customer number, please mark them as such on the attached spreadsheet (i.e., yes/no) and fax (703-308-2840) it back to me, or simply fax the list of applications/patents that you DO NOT wish to be associated with your customer number. Please DO NOT delete any applications from the spreadsheet.

If there are NO changes to be made, you can just return a fax stating that it is alright to associate all files with your customer number. Please keep in mind that the applications will be associated with the Correspondence Address as indicated in the "Correspondence Address" column of the Excel Spreadsheet.

If you have any questions, please feel free to contact me.
